Password protecting your Playlists

Last Modified on 10/14/2026 12:55 pm PDT

To make sharing your Playlist more secure, you can protect it with a password.

At a glance

This feature is available to users on our **Artist** and **Pro** plans.

Enabling password protection

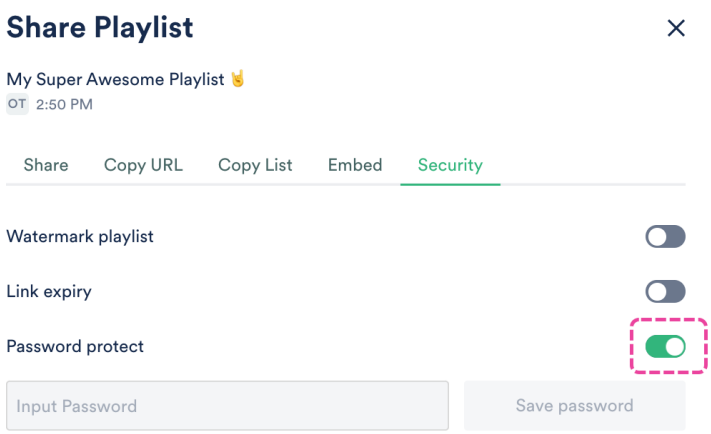

> ***Note:*** *Once you set a password for a Playlist, all Playlist Share URLs for that Playlist will require that password for access.*

There are two ways to set a password for your Playlist:

- from the **Share Playlist** menu
- from **Playlist Settings**

From the Share Playlist menu:

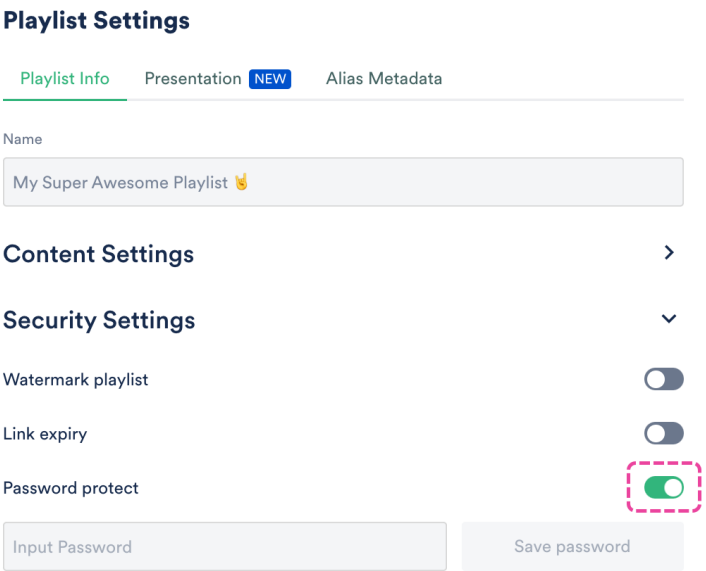

1. Open the **Playlist menu (⋮)**.
2. Select **Share**.
3. From the **Security** tab, set the **Password protect** toggle to **ON**.

4. Input a secure password and click the **Save Password** button.
5. Send the password to the recipient using a secure method, as it cannot be sent via DISCO.
6. When the recipient accesses the Playlist, they'll be prompted to enter the password.
7. Once the recipient enters the password and clicks the **Open playlist** button, they'll be able to access it.

From Playlist Settings:

1. Open the **Playlist menu (⋮)**.
2. Select **Playlist Settings**.
3. From the **Playlist Info** tab, under **Security Settings**, set the **Password protect** toggle to **ON**.

4. Input a secure password and click the **Save Password** button.
5. Click the **Save Playlist** button.
6. Send the password to the recipient using a secure method, as it cannot be sent via DISCO.
7. When the recipient accesses the Playlist, they'll be prompted to enter the password.
8. Once the recipient enters the password and clicks the **Open playlist** button, they'll be able to access it.

Disabling password protection

Follow the steps above from either the **Share Playlist menu** or **Playlist Settings**, and set the **Password protect** toggle to **OFF**.
