Linking Artist Profiles

Last Modified on 10/14/2026 12:56 pm PDT

The **Artist Profiles** in your DISCO are the same ones that are displayed in your **DISCO Catalogs** under **Artists** (in the left sidebar). You can link multiple Artist Profiles together so that users are presented with a consolidated Artist Profile when browsing through Tracks with different Artist names in your Catalog.

At a glance

This is useful for Artists who have bodies of work under different aliases or just prefer all of their Tracks to appear under the same Artist Profile in their Catalog.

Linking Artist Profiles

There are two ways to do this:

- from within an Artist Profile
- from your Catalog Settings

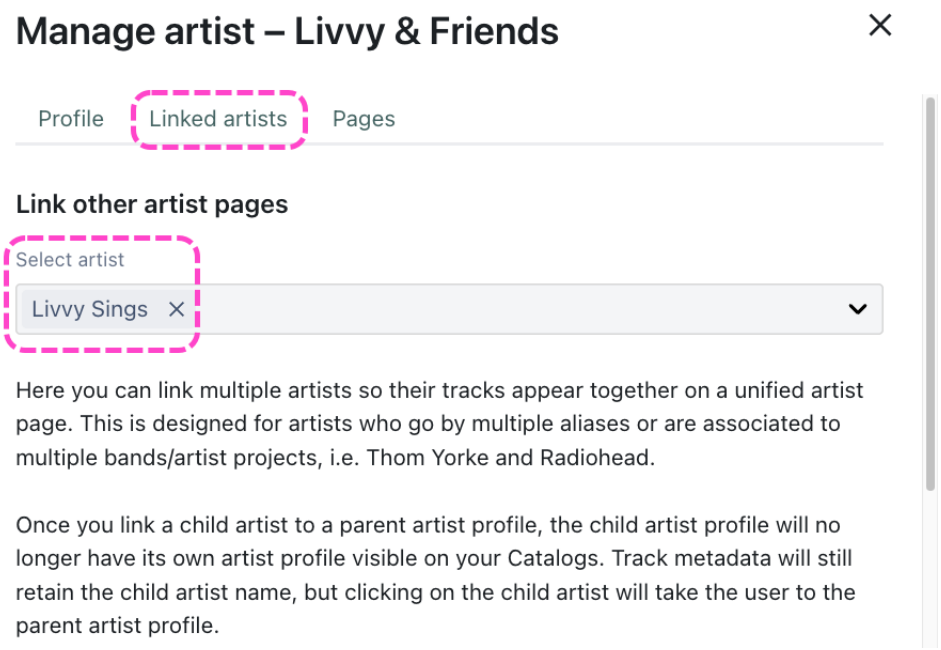

Before linking, determine which will be the **parent artist**, or the artist whose Profile under which Tracks from the other artist aliases will be nested.

> **Example**
> We want **Livvy & Friends** to be the parent artist, meaning Tracks from **Livvy Sings** should be nested under the Livvy & Friends Artist Profile.

From within an Artist Profile

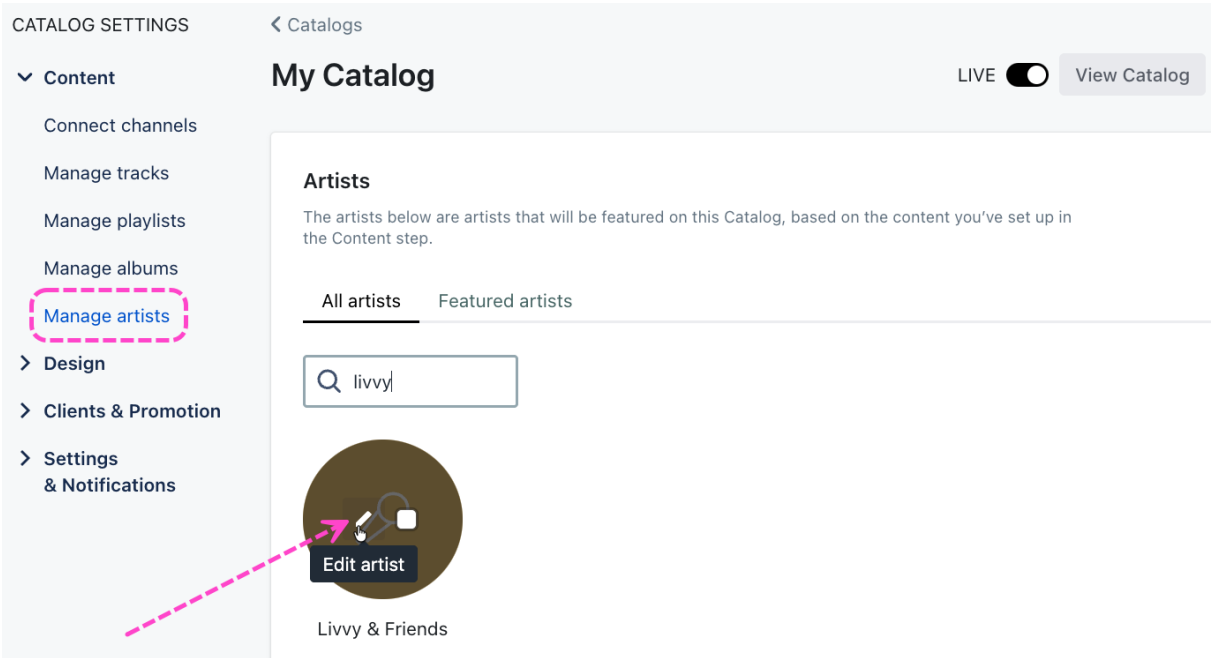

1. Open the **Artist Profile** for the parent artist.
2. Select the **Linked artists** tab.
3. Select the artist(s) you want to link from the dropdown.

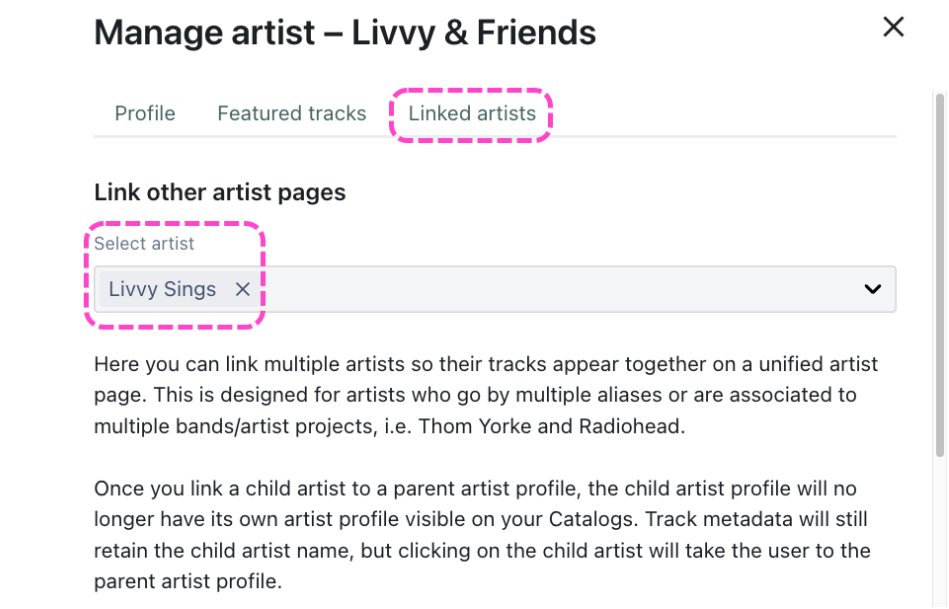

4. Select the **Profile** tab and click the **Save** button.

From your Catalog Settings

1. Open the **Catalog Settings** for the desired Catalog.
2. Under **Content**, select **Manage artists**.
3. Locate the parent artist, hover over the thumbnail, and click the pencil to **Edit artist**.

4. In the **Manage artist** window, select the **Linked artists** tab.
5. Select the artist(s) you want to link from the dropdown.

6. Select the **Profile** tab and click the **Save** button.

Viewing linked artists in your Catalog

After the artists are linked, *only the parent artist* will have an Artist Profile in your Catalog.
