Feature Guide: Lyric Transcription

□□□□□ 10/29/2026 2:42 pm PDT

Lyric transcription is available to users on the following plans:

- **Artist**
- **Plus**
- **Pro**
- **Enterprise**

The Track quota (specifically for transcribing lyrics on Tracks) for each plan varies and in some cases is dependent on whether or not the user is also subscribed to the **Discovery Suite**. Here's a full breakdown:

Base Plan	**User is not subscribed to Discovery Suite □**	**User is subscribed to Discovery Suite □**
Artist	unlimited Track quota for lyric transcription	unlimited Track quota for lyric transcription
Plus	20 Track quota for lyric transcription	20 Track quota for lyric transcription
Pro	20 Track quota for lyric transcription*	unlimited Track quota (up to your Discovery Suite Track quota) for lyric transcription
Enterprise	20 Track quota for lyric transcription*	unlimited Track quota (up to your Discovery Suite Track quota) for lyric transcription

> **Users on our **Pro** and **Enterprise** plans can get unlimited Track quota for lyric transcription by subscribing to the Discovery Suite.*

The following scenarios will count towards your Track quota for lyric transcription (if limited):

- lyric transcription was successful and lyrics were populated with a **High**, **Medium**, or **Low** confidence score
- lyric transcription was triggered but no lyrics were detected (for instrumental Tracks)

The following scenario *won't* be counted towards your Track quota for lyric transcription (if limited):

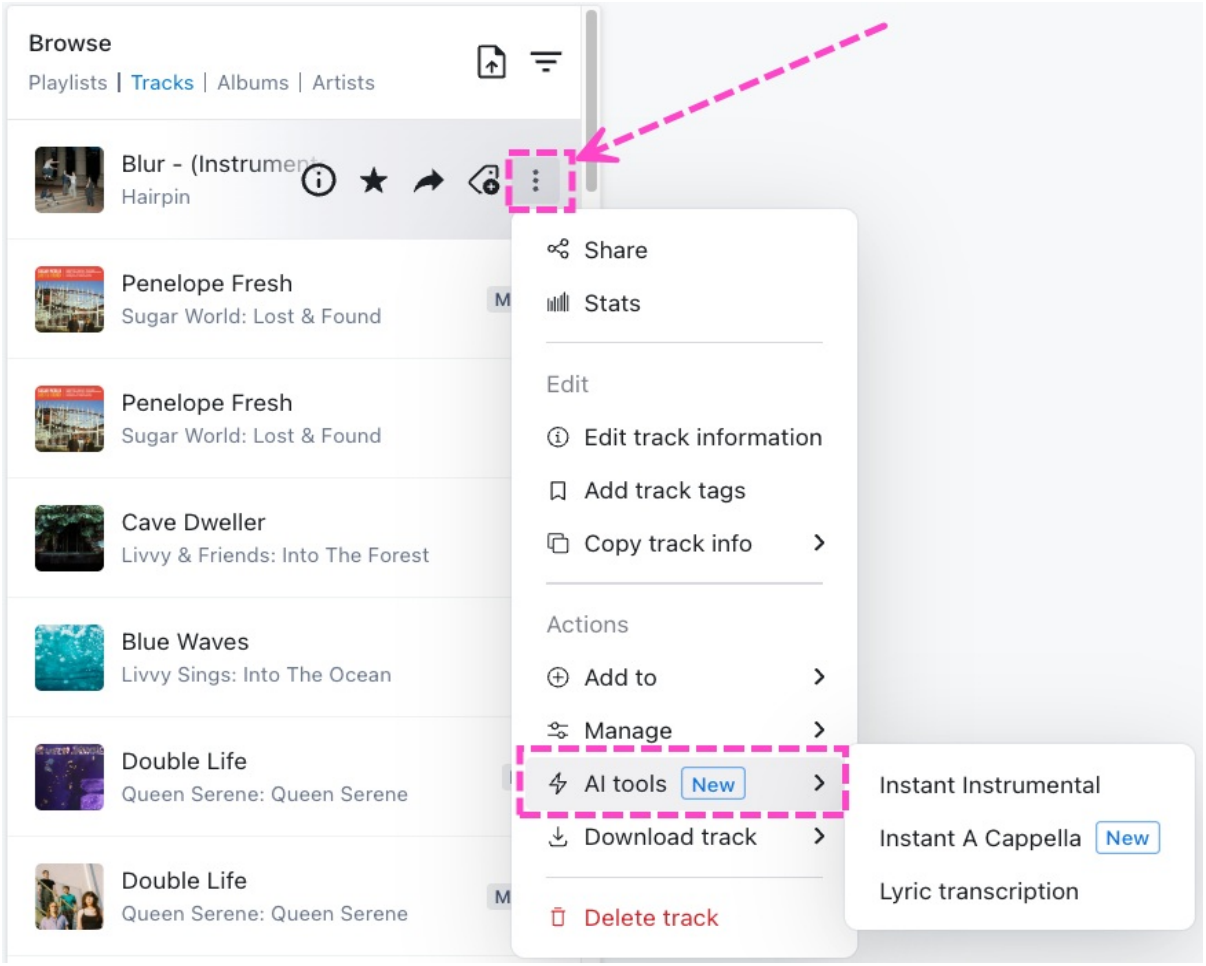

- lyric transcription was triggered but failed due to poor quality and lyrics weren't available for editing

---

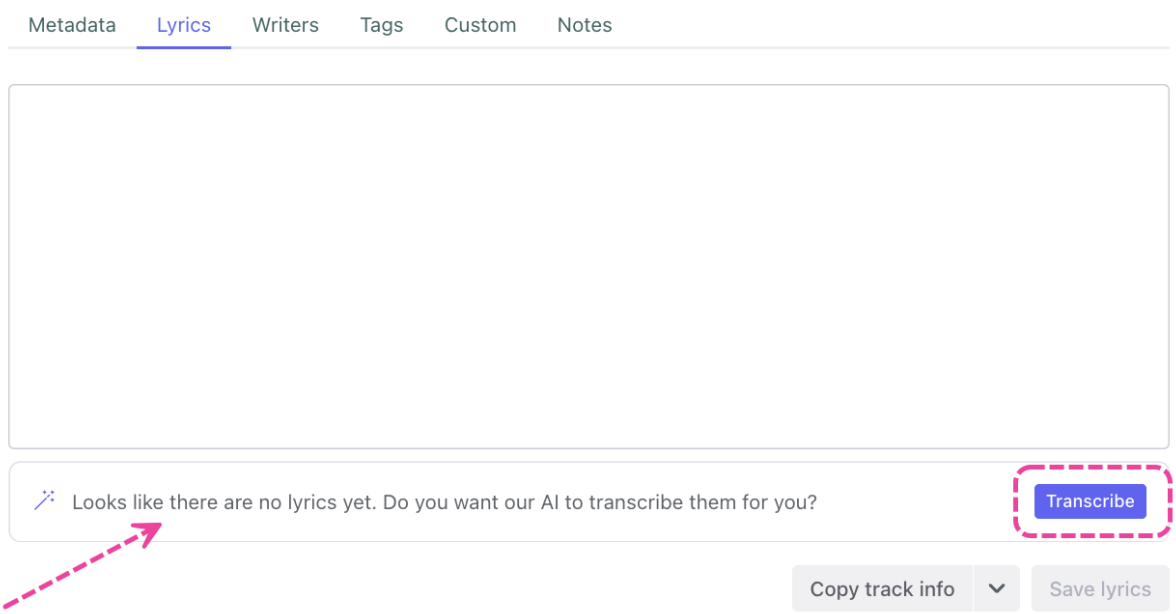

Transcribing lyrics on your Tracks

Step-by-step: Transcribing lyrics

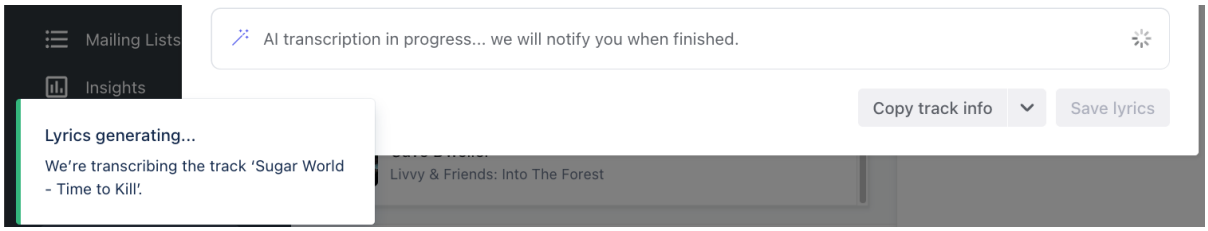

1. Open the **Track menu (⋮)** and select **AI tools > Lyric transcription**.

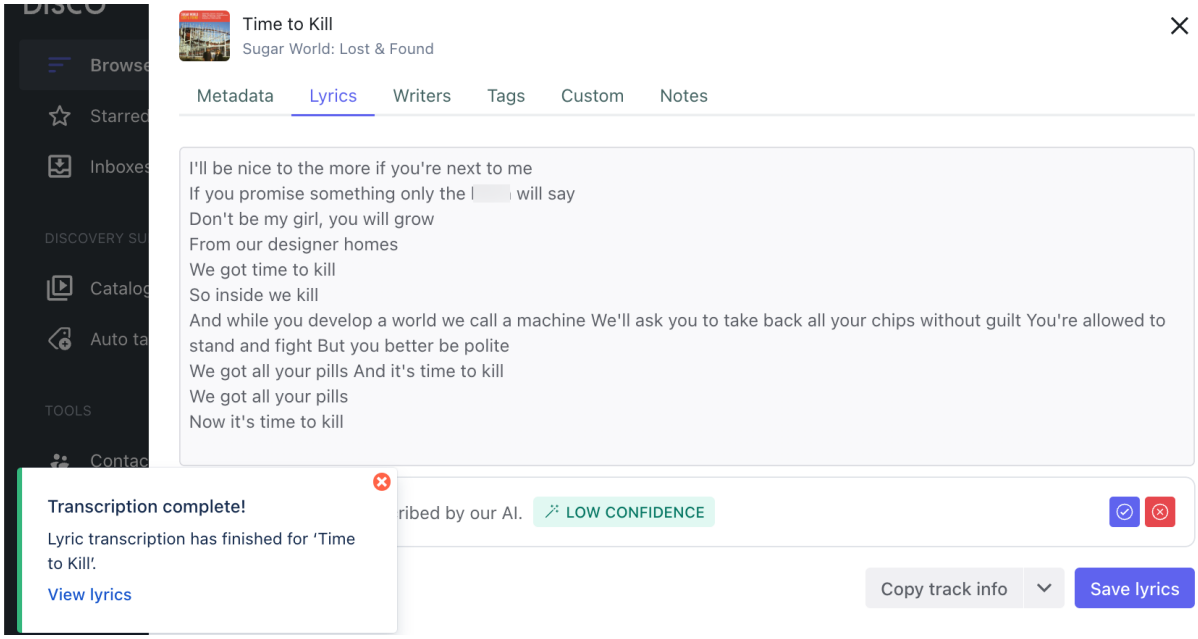

2. This will open the Track information page with the **Lyrics** tab highlighted. Click the **Transcribe** button.

3. The transcription will begin as indicated by the message in the bottom-left corner of your DISCO.

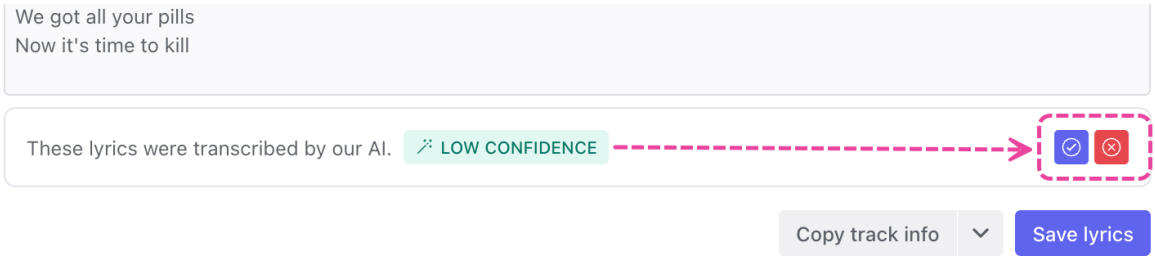

4. After a few moments, the transcription will be complete. If successful, a confidence score will be displayed and the lyrics will populate in the **Lyrics** tab.

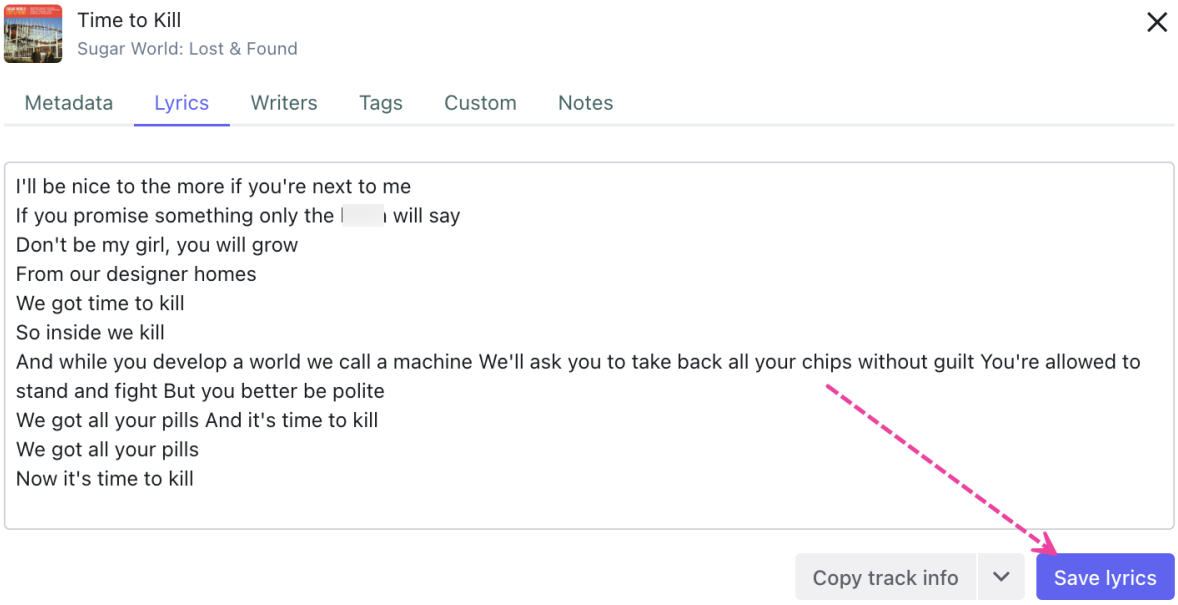

> ***Note:*** *The lyrics won't be editable until after the next step.*

5. You will then need to accept or reject the lyrics by clicking either the check mark or the 'X'.

> ***Note:*** *If you reject the lyrics, you'll be asked to provide some feedback and then they will be removed.*

6. You'll now be able to edit the lyrics if needed. When you're ready, click the **Save lyrics** button.

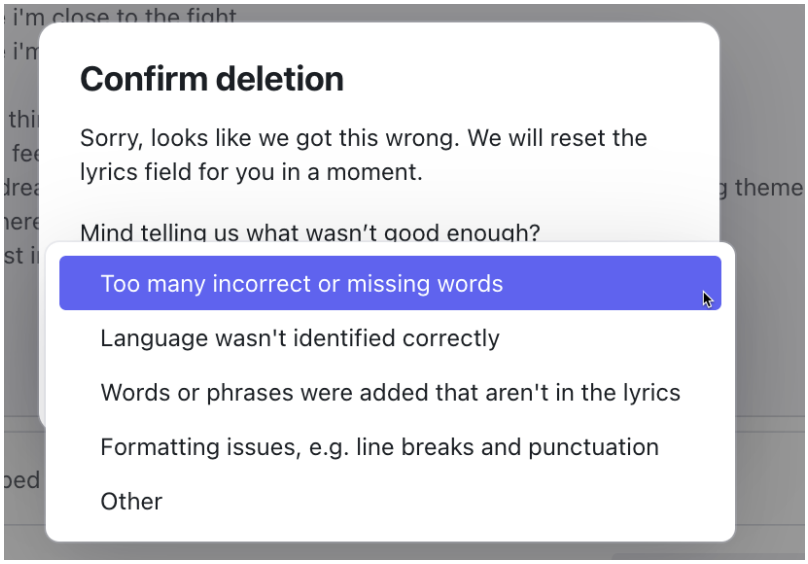

Rejecting lyrics

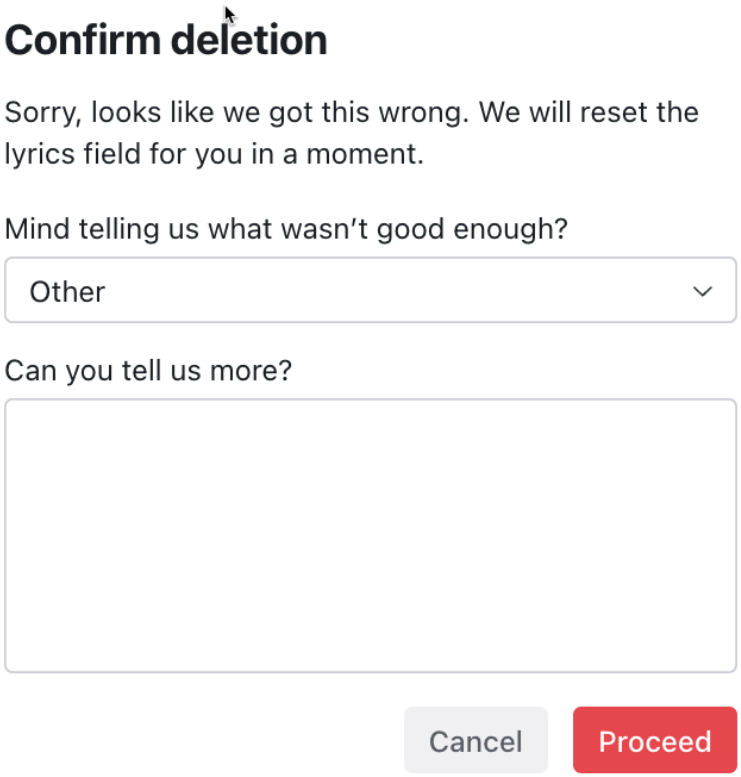

If you reject the lyrics that were transcribed, this will still count towards your Track quota for lyric transcription (if you have one), as the transcription was generated successfully.

Upon rejection you'll be asked to select a reason for rejection from the drop-down:

- **Too many incorrect or missing words**
- **Language wasn't identified correctly**
- **Words or phrases were added that aren't in the lyrics**
- **Formatting issues, e.g. line breaks and punctuation**
- **Other**

If you select **Other** you'll be asked to tell us a bit more about why you've rejected the lyrics. This feedback is crucial to help our AI improve, so we really appreciate you taking the time to give us any and all feedback

You can then click the **Proceed** button and the lyrics will be cleared from the **Lyrics** tab.
