Setting expiry dates for Playlist share links

Last Modified on 10/15/2026 1:23 pm PDT

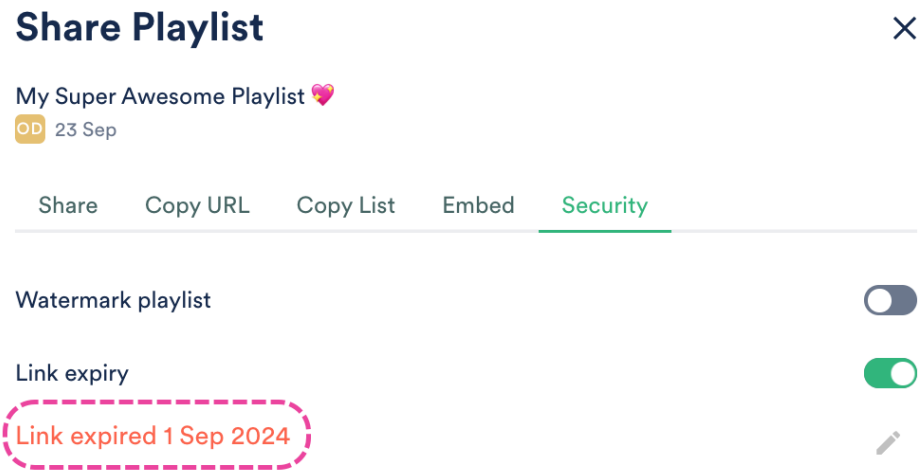

Users on our **Pro** and **Enterprise** plans can set expiry dates on Playlist share links.

At a glance

This is helpful if you'd only like a shared Playlist to be available for a certain amount of time. Once you set an expiry date, it will appear in **green** under the **Security** tab in the **Share Playlist** menu.

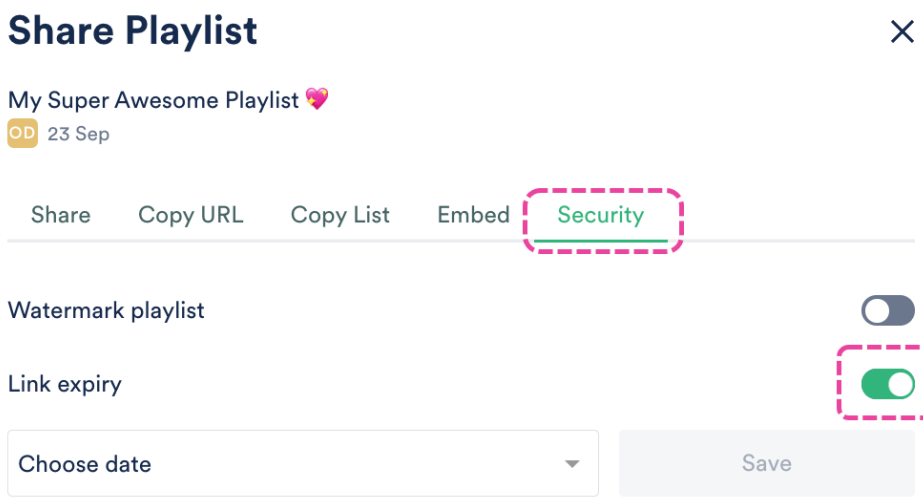

Once the link has expired, it will no longer be accessible to recipients, and the date will appear in **red**.

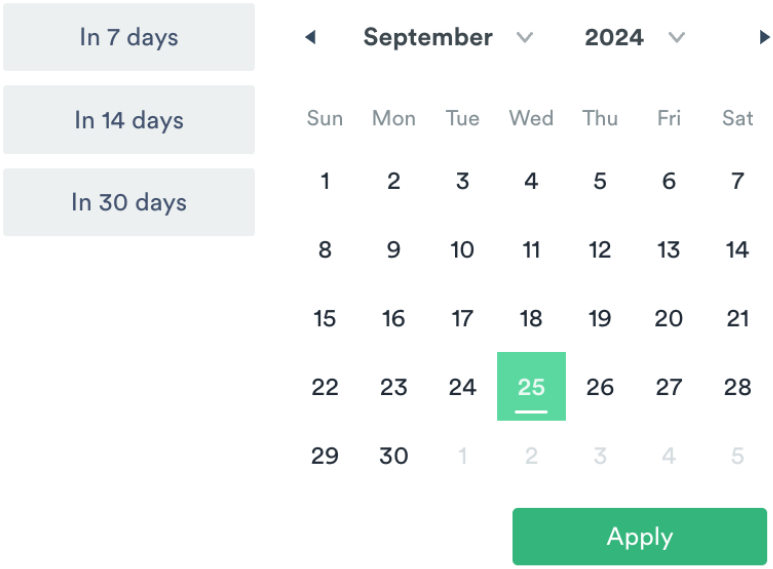

Adding link expiry dates

> ***Note:*** *Once you set an expiry date for a Playlist, all share links for that Playlist will expire on that date.*

1. Open the **Playlist menu (⋮)** and select **Share.**
2. In the **Share** menu, from the **Security** tab, set the Link expiry toggle to **ON**.

3. Choose a date from the drop-down and select one of the options (**In 7 days**, **In 14 days**, **In 30 days**) or set a custom date.

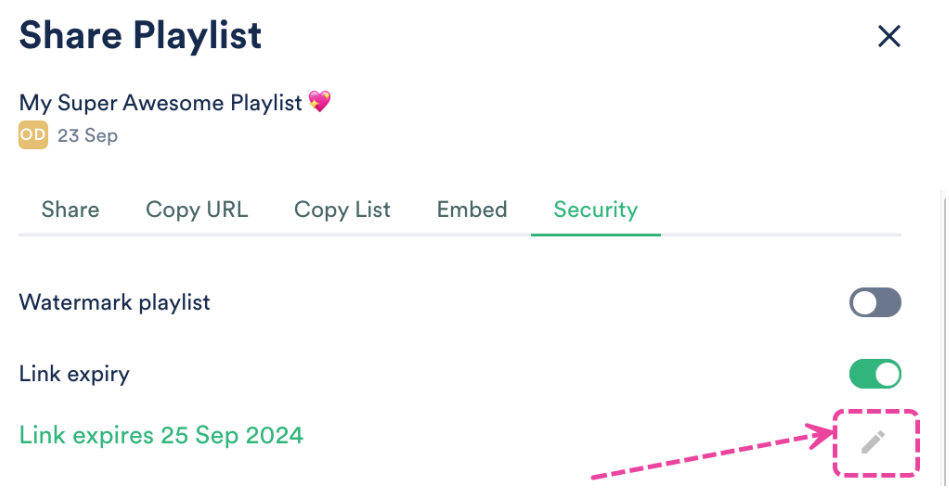

4. Click the **Apply** button, then click the **Save** button.

Updating and removing link expiry dates

To update an expiry date:

1. Click the pencil icon to the right of the date.

2. Select a new date, then click the **Apply** button.
3. Click the **Save** button.

To remove an expiry date:

1. Set the Link expiry toggle to **OFF** (it should appear gray).
